Hello Jim,

I'm sorry I missed your call today.

Pam Avery was used at a Homestake meeting once. I couldn't find her tel number but luckily I wrote down her email. pam@turnerstrategies.com.

With the furlough and all we have not worked further on trying to get her here to do a training session.

The facilitator Donn used for a meeting at San Jacinto which was contentious was very good also. I believe Donn already gave you're her name.

When I spoke to the ADR folks back at a conference in July, Ana Abbey ADR in HQ thought a man named David Battson was a good arbitrator/facilitator....he moved to climate change but that may be a good thing for you. I do not know of him otherwise though.

I will be out all next week: Donn Walters will be acting for me which is why I copied him on this message.
